Springs

One-way

Re: Specification spikes-unidirectional

Galvanized spikes below specification:

Length - 900 mm

Width - 230 mm

Height - 105 mm

18 mm thickness

Type the spring - steel

With concrete anchors / screws jumbo, or alternatively Beton, poker is divided into three independent fields.

All field work as a separate entity, including a spring returns to prevent neutralization wire.

Poker is made of galvanized material stainless steel
