- Full Height Turnstiles
- Tripods
- TIRE KILLER SPIKES**

General

The unique and innovative S1000 spike system was developed with the specific aim of bringing a vehicle to a halt without harming passengers. Designed to rip tires apart and even withstand the latest generation of run-flat tires, the S1000 has been proven in the field as a particularly effective solution for border crossings and locations where vehicles pass at high speed.

DESCRIPTION	SPECIFICATIONS
Dimensions	L:4.5 - 7 m W:270 mm D:330mm
MOBILE/FIXED	FIXED
FOUNDATION	500 mm
MECHANISM	PNEUMATIC/HYDRAULIC
SYSTEM TYPE	ACTIVE 2-WAY SPIKES
MAXIMUM SPEED	2 Sec.
POWER	5-6 ATM AIR PRESSURE 110-240 AC (COMPRESSOR)

S1000
ACTIVE 2-WAY SPIKES
