## Flap barrier BGI F800

SR. NO.	DESCRIPTION	BGI F800
1.	<b>Make</b>	BGI
2.	<b>Model</b>	BGI F800
3.	<b>Dimensions</b>	Height: 1040mm, width :185mm, Depth:1400mm
4.	<b>Gross weight</b>	79kg; double:94kg
5.	<b>Technology</b>	Power assisted motion; servo-positioning drive / 2 directions electrically controlled.
6.	<b>functions</b>	Bi – directional: automatic or Manuel or lock
7.	<b>Operation modes</b>	Normally open (N/O) , Normally close (N/c) ,
8.	<b>Construction</b>	Construction: Stainless Steel satin finish housing, base columns with flange made of stainless steel satin finish AISI 304.Rigid crossbars made of stainless steel AISI 304.
9.	<b>Internals</b>	Corrosion, sturdy and rust free low-maintenance stainless steel surface for all stainless steel parts.
10.	<b>Power Supply</b>	Supply: 100V~240V VAC
11.	<b>Power consumption</b>	35w
12.	<b>Driving voltage</b>	24v
13.	<b>Environment</b>	-25~+70;
14.	<b>Input</b>	12v dry contact
15.	<b>Pass rate:</b>	35 persons /min
16.	<b>Pass withe</b>	550-1100 mm
17.	<b>wing</b>	Polycarbonate Thickness 10mm (height from 850 mm)
18.	<b>Power Off</b>	Optional: battery backup at power off to open wings
19.	<b>Power Consumption</b>	Standby power consumption 10 VA
20.	<b>Operation</b>	Bi-directional
21.	<b>Integration (Input)</b>	Card reader, push button
